

Hardware

- 112 Ch High Performance MEMS

Microphone

- Measure and Analyze up to 48 kHz
- Audio and HDMI Output
- 5-inch Touch Screen
- Available for 4 Hours
- Include Distance Sensor
- Two Lights Adjustable

Software

- Visualize and Display Sound in Real Time
- Band Pass Filtering
- Show Leakage Estimation Index
- Image Averaging Function
- Save Videos and Images
- Accuracy Improvement over Distance
- Sensor Self-Diagnosis Function

Specifications

Specifications

Sensor(Microphone)	112Ch Digital MEM
--------------------	-------------------

Effective Frequency Range	2 k ~ 48 kHz
---------------------------	--------------

Microphone Sensitivity	-41 dBFS
------------------------	----------

Signal-To-Noise ratio	66 dB(A)
-----------------------	----------

Camera Frame Speed	25 FPS
--------------------	--------

Detection Distance	0.3 m ~ 50 m
--------------------	--------------

Display Type	5" Color LCD
--------------	--------------

Battery Operation Time	4 Hours
------------------------	---------

Product Size	237 mm x 146 mm
--------------	-----------------

Product Weight

1.2 kg

Operating Temperature

-20 ~ 50 °C

Warranty extension program

Basic Warranty 1 Year

Additional 2 years

+1,800,000 KRW (excluding VAT)
